For the first time since its publication in 1999, Colorado's best-selling book of all time, "the big brown leather book," is being improved. Over 200,000 copies of it and its brethren, Colorado 1870-2000 Vol. II, and Colorado 1870-2000 Revisited: The History Behind the Images have been sold. John Fielder's then & now project to stand where W.H. Jackson stood in the 19th century and make his photos all over again has influenced, stimulated, and entertained Coloradans like no other history book nor coffee table book. John Fielder has rescanned the original transparencies that he shot for the project, and digitally edited the original Jackson negatives, to reveal new details not visible in previous editions. From downtown Denver in the 1880s to the top of Mount of the Holy Cross, you will see as never before change for the better and worse, lots of change or none at all, as Fielder tracks from one end of the state to the other Jackson's early Colorado explorations.

This publication is the official theory test book for motorcyclists compiled by the Driving Standards Agency. It contains multiple choice questions, with answers and explanations, dealing with topics such as: alertness and attitude, safety margins, hazard awareness, vulnerable road users, motorcycle handling, motorway rules and rules of the road, road and traffic signs, documents, accidents, and motorcycling loading. This edition is valid for theory tests taken from 26th September 2005.

Join 14 very special artists on a Creative Pilgrimage as they share exciting projects that they teach through the various art retreat venues from across the nation. As they teach their special projects, we experience what it's like to learn from this celebrated cohort of talented artists. Hear their unique perspectives about the importance of teaching a process where through sharing knowledge, they also gain knowledge and develop community. Featured artists include: Alisa Burke Julie Haymaker Thompson Lisa Kaus Mary Beth Shaw Maya Donenfeld Roxanne Padgett Sarah Ahearn Bellemare Stephanie Jones Rubiano Tracie Lyn Huskamp Heather Smith Jones Carla Sonheim Mati Rose McDonough Alma Stoller Flora Bowley Peppered throughout the book are snapshots that give us a glimpse of some of the most amazing art retreats from across the nation. They are: Squam Art Workshops The Makerie Artfest An Artful Journey Artistic Bliss Valley Ridge Art Studio Art & Soul Silver Bella You'll get a special behind-the-scenes look at these special gatherings from the unique points of view of the coordinators, students, and instructors alike. Take a leap of faith into your quest to learn, teach, grow, and create with Creative Pilgrimage!

"I can think of no better guides than Professors Ken Gregory and John Lewin to lead the reader through the conceptual basis of this exciting science." - Victor R. Baker, University of Arizona "A very readable and informative introduction to the discipline for senior undergraduates, postgraduates and researchers." - Angela Gurnell, Queen Mary University of London "Time will tell, but this book may well mark a turning point in the way students and scientists alike perceive Earth surface processes and landforms." - Jonathan Phillips, University of Kentucky This student focused book provides a detailed description and analysis of the key concepts, ideas, and hypotheses that inform geomorphology. Kenneth Gregory and John Lewin explain the basics of landform science in 20 concepts, each the subject of a substantive, cross-referenced entry. They use the idea of the 'geomorphic system' to organise entries in four sections, with extensive web resources provided for each: System Contexts: The Systems Approach / Uniformitarianism / Landform / Form, Process and Materials / Equilibrium / Complexity and Non Linear Dynamical Systems System Functioning: Cycles and cascades / Force-Resistance / Geomorphic work / Process Form Models System Adjustments: Timescales / Forcings / Change Trajectories / Inheritance and Sensitivity / Anthropocene Drivers for the Future: Geomorphic Hazards / Geomorphic Engineering / Design and Prediction Aligned with the teaching literature, this innovative text provides a fully-functioning learning environment for study, revision, and even self-directed research for both undergraduate and postgraduate students of geomorphology.

This software pack for PC and Mac contains The Official DVSA Theory Test for Motorcyclists DVD-ROM (2015 edition) and The Official DVSA Guide to Hazard Perception DVD (2015 edition). The Theory Test DVD-ROM has a clear three-step process "study, practice, test yourself", allow complete preparation for the multiple choice test. All official revision questions and answers are included. The DVD-ROM has new learning material in clear, bite-sized chunks to help users understand the theory, whatever their learning style, and utilises real-life images and clear diagrams, links to further online information and videos, and hints and tips to help users remember and apply what they have learnt. Users can clearly track progress, and take mock multiple-choice tests. A digital version of The Official Highway Code and voiceover option are also included. The Hazard Perception DVD demonstrates how to recognise and respond to hazards, with ten official DVSA practice interactive video clips.

When a babysitter classmate overhears through a baby monitor that someone may be in trouble, Norah and Darcy, assisted by junior detective agency newcomer Fiona, follow a series of clues before making a shocking discovery.
