The only authorized Lab Manual for the Cisco Networking Academy CCNA Cybersecurity Operations course Curriculum Objectives CCNA Cybersecurity Operations 1.0 covers knowledge and skills needed to successfully handle the tasks, duties, and responsibilities of an associate-level Security Analyst working in a Security Operations Center (SOC). Upon completion of the CCNA Cybersecurity Operations 1.0 course, students will be able to perform the following tasks: Install virtual machines to create a safe environment for implementing and analyzing cybersecurity threat events. Explain the role of the Cybersecurity Operations Analyst in the enterprise. Explain the Windows Operating System features and characteristics needed to support cybersecurity analyses. Explain the features and characteristics of the Linux Operating System. Analyze the operation of network protocols and services. Explain the operation of the network infrastructure. Classify the various types of network attacks. Use network monitoring tools to identify attacks against network protocols and services. Use various methods to prevent malicious access to computer networks, hosts, and data. Explain the impacts of cryptography on network security monitoring. Explain how to investigate endpoint vulnerabilities and attacks. Analyze network intrusion data to verify potential exploits. Apply incident response models to manage network security incidents.

Scaling Networks Lab Manual The only authorized Lab Manual for the Cisco Networking Academy Scaling Networks course in the CCNA Routing and Switching curriculum Scaling Networks Lab Manual contains all the labs and class activities from the Cisco® Networking Academy course. The labs are intended to be used within the Cisco Networking Academy program of study. Related titles: CCNA Routing and Switching Practice and Study Guide Book: 978-1-58713-344-2 eBook: 978-0-13-351761-3 CCNA Routing and Switching Portable Command Guide Book: 978-1-58720-430-2 eBook: 978-0-13-338136-8 Scaling Networks Companion Guide Book: 978-1-58713-328-2 eBook: 978-0-13-347640-8 Scaling Networks Course Booklet Book: 978-1-58713-324-4

Network Basics is the first course of the updated CCNA v5 curriculum offered by the Cisco Networking Academy. This course is intended for students how are interested in pursuing a career in I.T. or networking. \* \*This course is intended for students who are beginners in networking and pursuing a less technical career. \*Easy to read, highlight, and review on the go, wherever the Internet is not available. \*Extracted directly from the online course, with headings that have exact page correlations to the online course

Introduction to Networks Companion Guide is the official supplemental textbook for the Introduction to Networks course in the Cisco® Networking Academy® CCNA® Routing and Switching curriculum. The course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, you will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. The Companion Guide is designed as a portable desk reference to use anytime, anywhere to reinforce the material from the course and organize your time. The book's features help you focus on important concepts to succeed in this course: Chapter Objectives/Review core concepts by answering the focus questions listed at the beginning of each chapter. Key Terms/Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter. Glossary/Consult the comprehensive Glossary with more than 195 terms. Summary of Activities and Labs/Maximize your study time with this complete list of all associated practice exercises at the end of each chapter. Check Your Understanding/Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer. Related Title: Introduction to Networks Lab Manual ISBN-10: 1-58713-312-1 ISBN-13: 978-1-58713-312-1 How To/Look for this icon to study the steps you need to learn to perform certain tasks. Interactive Activities/Reinforce your understanding of topics with dozens of exercises from the online course identified throughout the book with this icon. Videos/Watch the videos embedded within the online course. Packet Tracer Activities/Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout the chapters. Hands-on Labs/Work through all 66 course labs and Class Activities that are included in the course and published in the separate Lab Manual. This book is part of the Cisco Networking Academy Series from Cisco Press®. Books in this series support and complement the Cisco Networking Academy curriculum.

Scaling Networks v6 Companion Guide is the official supplemental textbook for the Scaling Networks v6 course in the Cisco Networking Academy CCNA Routing and Switching curriculum. The Companion Guide is designed as a portable desk reference to use anytime, anywhere to reinforce the material from the course and organize your time. The book's features help you focus on important concepts to succeed in this course: Chapter objectives/Review core concepts by answering the focus questions listed at the beginning of each chapter. Key terms/Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter. Glossary/Consult the comprehensive Glossary with more than 250 terms. Summary of Activities and Labs/Maximize your study time with this complete list of all associated practice exercises at the end of each chapter. Check Your Understanding/Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer.
