The arrival of the COVID-19 pandemic throughout the globe at the end of 2019 turned global business upside down. It forced the closure of many businesses, disrupted global supply chains, reduced travel across borders, and created fear about face-to-face interactions. As the lockdowns in many countries created uncertainty about the future business activities, global business leaders were scrambling to find new strategies to safely re-establish their business relationships with their stakeholders. The existing historical economic, social, and racial injustice in the American society toward Black, Indigenous, and People of Color was compounded by the COVID-19. This led the movements of the Black Lives Matter to reenergize and become a global phenomenon. The horrific and sad death of George Floyd and many others triggered huge global movements to demand respect for human rights and dignity for all. Additionally, climate change and environmental degradation have caused unprecedented forests fires, more frequent and damaging hurricanes, and migration demand a revived global business book. This third edition of Global Business: An Economic, Social, and Environmental Perspective incorporates global business issues related to COVID-19, the economic and social injustice of BIPOC, and environmental degradation where it is appropriate. The reader will understand the impact of these critical global business issues discussed in the book through examples, case studies and thought-provoking discussions. These challenges require businesses, governments, and the active engagement of citizens to succeed. The aim of this book is to bring these issues for discussion and action by these stakeholders. Each chapter includes supplementary PowerPoint slides, Test-Bank, and Teaching notes that are available for instructors only.

Now in its eighth edition, The Cultural Dimension of Global Business continues to provide an essential foundation for understanding the impact of culture on global business and global business on culture. The cross-cultural scenarios presented in each chapter allow students of business, management, and anthropology alike to explore cultural difference while gaining valuable practice in thinking through a variety of complex and thorny cultural issues. The fully updated eighth edition offers:

- fresh case study material with a range of examples drawn from around the world;
- further resources via a companion website, including a fully updated Instructor's Manual and new interactive quiz questions for students.
