House of Suns is a 2008 science fiction novel by Welsh author Alastair Reynolds. Reynolds announced the title on 7 June 2007, when he was about halfway through writing it.

House of Suns - Wikipedia

House of Suns is a strong Alastair Reynolds novel - not as pulpy sci-fi as his previous novel The Prefect, it's harder on the technical and scientific side of things, but just as strong in characterisation and plotting, taking into consideration vast concepts of the nature of space, longevity and artificial intelligence.

House of Suns: Truly epic time scales, but characters also shine Originally posted at Fantasy Literature This is the first Alastair Reynolds ' book I ' ve read not set in his REVELATION SPACE series, and many of his fans claim it ' s his best book. I ' d have to say it is pretty impressive, dealing with deep time scales rarely seen for any but the most epic hard SF books.

House of Suns remains one of my favorite novels, and it was certainly one of the most enjoyable to write. I don't remember any particular setbacks or impasses at any point in the process, which is an extremely unusual thing for me, especially where novels are concerned. The genesis of the book is simple enough.

Reynolds states that he has "tentative plans for three more Dreyfus titles, with an arc that would eventually take him beyond Yellowstone, and then back again." House of Suns is a standalone novel set in the same universe as his novella "Thousandth Night" from the One Million A.D. anthology. It was released in the UK on 17 April 2008 and in the US on 2 June 2009.
