This established textbook  
explores how regions, and  
food industry, travel and  
hospitality companies  
present themselves to  
tourists experiencing the  
culture, history and  
ambience of a location  
through the food and wine it  
produces. It provides  
practical suggestions and  
guidelines for establishing

a food-related tourism destination and business, discussing the environment, understanding the food tourist, supply issues, tours and tasting sessions, themed itineraries, planning and developing the tourist product, marketing and best practice strategies. It also includes numerous case studies from around the world and plentiful pedagogical features to aid student learning. If food and wine tourism is well planned, managed and controlled, it can become a real economic resource. Suitable for students in tourism and leisure subjects, the practical

application provided in this book also makes it an ideal resource for those operating in the food and wine sector.

A comprehensive and interdisciplinary approach to the economics of the production, distribution, and consumption of wine. Wine economics is a growing subfield that examines the economics of the production, distribution, and consumption of wine. In this book, Stefano Castriota takes a comprehensive and interdisciplinary approach to the study of wine economics, drawing on

literature from industrial organization, welfare economics, economic policy, political economy, management, finance, health economics, law, and criminology. Castriota explores how wine markets operate and how they are regulated, covering such diverse topics as the health economics of wine consumption (both the positive health effects associated with moderate wine intake and the negative effects of alcohol abuse), the competition and profitability of wineries, the function of wine as an investment, and the quality of wine. He examines

differences between the wine industries in the Old World and the New World, comparing small, family-owned wineries with larger conglomerates, and analyzes the regulation of wine in the United States versus the European Union. He concludes with a series of recommendations to ensure open and efficient wine markets while protecting public health. Originally published in Italy as *Economia del Vino*, this English translation has been extensively revised. It includes additional material focusing on the English-speaking countries of the New World, particularly the regulatory environment of

This book, likely the first  
of its kind in the English  
language, explores Chinese  
for specific and  
professional purposes (CSP)  
in terms of theorizing and  
developing practical  
applications for language  
teaching and learning. While  
research in language for  
specific purposes is  
thriving for languages such  
as English, there has been  
comparatively little such  
research conducted for  
Chinese. This volume  
attempts to fill the gap by  
bringing together

practitioners from a broad international scholarly community, who share common interests yet diverse orientations. Seventeen papers are included, and address four broad thematic categories: (1) academic Chinese, (2) business Chinese, (3) Chinese for medicine and health care, and (4) Chinese for other broadly defined services and industries (diplomacy, tourism, wine-tasting, etc.). Representing the state of the art in CSP research, the book offers an indispensable guide for anyone interested in theoretical and practical issues in this area of
