During manual handling training a strong young man at the construction site was bragging that he could out do anyone in a feat of strength. He made a special case of making fun of the site safety team. After several minutes, the manual handling instructor had had enough. "Why don't you put your money where your mouth is," he said. "I will bet a week's wages that I can move something in a wheelbarrow over to that site hut that you won't be able to wheel back."

Incompetent parents everywhere can benefit from this indispensable guide—complete with The Wheel of Responsibility to help moms and dads negotiate baby responsibilities (and shirk diaper duty!) whenever they can. Makes baby-rearing a blast!

Sarah Jane has no career aspirations, all she wants is to leave school, work as a cashier at Woolworths and get married. Then everything changes and she finds herself wearing a fluorescent pink uniform and studying to get into Nursing School. What inspired this surprising change of direction? What happens when she leaves home to live in a garrison town with a housemate who is a party animal? The big

question being, is she really cut out to be a nurse? Let's start at the beginning with Sarah Jane as a sixteen-year-old country girl, a bit old fashioned but who has a mischievous sense of humour and who suddenly decides she wants to be a nurse! "This funny, yet poignant nursing memoir has Sarah Jane's trademark honest writing style which shines through in every story she tells. From starting her student nurse training in Essex to coping with patients in happy, sad and heart-breaking situations. It gives you a young woman's view into the realities of entering the world of nursing in the 1980's. A highly entertaining and informative memoir which was able to take me from laughing out loud to having welled tears of empathy." S. Brewster

The Intelligent Parents' Manual: A Practical Guide to the Problems of Childhood and Adolescence provides an introduction to problems that may arise in the development of the child from birth to adolescence. This book discusses the problem in the relation between parents and children. Organized into five parts encompassing eight chapters, this book begins with an overview of the general pattern of a child's growth. This text then examines how parents can protect the baby from the two instinctive fears of the sensation of falling and the sound of loud noises. Other chapters consider the mother's task in a child's life, namely, provide opportunity and freedom, protect the child from physical injury, and keep the child from doing too much damage to property. This book discusses as well the development during adolescence. The final chapter deals with the parent's

realistic conception of the limitations of their children and themselves. This book is a valuable resource for parents, psychologists, and psychiatrists.

A focus on the legal aspects of medicine, ethical issues, and community-based work distinguishes this education manual for nurses from previous volumes in the series. Discussion questions and self-assessments are included in each chapter whose subjects include care for women with special needs, disabled clients, the elderly, and patients with HIV/AIDS or a malignant disease.
