Thoroughly recommend this book to anyone who enjoyed Breaking Legacies, Sword of the Guardian or Of Fire and Stars. Most of the story focuses on Princess Esofia and her new suitors, Princess Adale and her two horrid cousins. You can guess who she picks. Dragons are also a threat throughout but they only have a very short run in towards the end.

Adale gave her head a shake. Was she going mad? Even if Esofi made a pleasant bride, there was no way Adale would be anything other than the most shameful queen in Ieflarian history.
